NBA Rebound

Jon Bon Jovi and HELP USA collaborated with other governmental agencies to construct a low income housing project in Newark, NJ. Watch the video.

Seniors at Risk

Jeanine Reilly, Executive Director of BH, residents discuss the growing population of seniors at risk. Watch the video.

THE HEART OF ACADEMIC MEDICINE

HEART & STROKE PREVENTION

Each year more than 813,000 people die from blood vessel related diseases — that's over 33 percent of all deaths in the United States! Yet many types of heart disease and stroke can be prevented.

About RWJUH

One of the nation's leading academic medical centers, Robert Wood Johnson University Hospital (RWJUH) provides state-of-the-art care across the full range of health care services. Specialties include cardiac care from screening to heart surgery and transplantation, cancer care, emergency medicine, pediatrics and maternal-fetal medicine.

UMDNJ

UNIVERSITY OF MEDICINE AND DENTISTRY OF NEW JERSEY
2005/2006 ANNUAL REPORT

WE ARE UMDNJ

LYSE ROSENBERG MY STORY

As a second-year student, I worked with Professor Mary Jo Robinson in my pathology courses and we began to foster a relationship. I admire her for setting goals and accomplishing them in the face of other people's doubts. She's cool and extremely knowledgeable in her field. She should be recognized for her expertise, not her disability. We had the opportunity to do a presentation together for second-year students about what it means to have a disability and be a doctor. I enjoy encouraging other students to keep open minds."

Robinson, a graduate of Gonzaga University and Bar Ilan University College of Osteopathic Medicine and Surgery, Newark, At each step of my education and professional life, there was someone who offered me a helping hand. I met her in the first place. It was hard for me to find a doctor who could help me find a place to provide care just as good as everyone else's."

MY INSPIRATION

Mary Jo Robinson, D.O., an assistant professor at UMDNJ, is chair of the

THE BRISTOL-MYERS SQUIBB CHILDREN'S HOSPITAL at Robert Wood Johnson University Hospital

BREAK throughs

Our award-winning magazine is now available on your favorite device.

Transcatheter Aortic Valve Replacement (TAVR)

The only valve replacement option for patients with severe aortic stenosis who are not well enough to undergo traditional open-heart surgery.

TAVR Procedure

THE GAMMA KNIFE IS THE ONLY MACHINE DESIGNED SPECIFICALLY FOR LESIONS

Why is Gamma Knife® Perfexion™ the correct technology for your brain diagnosis?

With so many different technologies available in the US for the treatment of benign and malignant brain conditions, it is easy to get confused. For brain disorders requiring radiation, Robert Wood Johnson University Hospital is pleased to offer the Gamma Knife Perfexion, a revolutionary tool specifically designed to treat many brain conditions.
